Associated partner:

Association for Teacher Education in Europe (ATEE):
<https://atee.education/>

The ATEE aims to enhance the quality of Teacher Education in Europe through active dialogue and international exchange of research and practice in initial and in-service teacher education.

What do we do?

We aim to design a European digital platform for teacher transition integrating an international Learning Community, taking advantage of current technological capabilities, and offering quality training for all, without barriers to social accessibility or capacity.

Benefits

Professional growth

When teachers attend training programs, it gives them the opportunity for continuous professional development - to learn new ways, methods, strategies, skills and tools. When teachers get upskilled they automatically feel confident, happy and motivated to achieve greater things with their students.

Better student management

As a teacher it is important to know, understand and analyze students effectively. Only then can they know how to teach their students. Teacher training programs help teachers to better understand and therefore, better manage their students.

Are you a pre-service or beginner teacher?

Feeling overwhelmed? Uncertain? Distressed?
